SECTION V – HEALTH HAZARD DATA Threshold Limit Value Effects of Overexposure: Copper and/or Silver: Inhalation -cough, chills, general malaise, kidney disfunction. Ingestion liver disfunction. Eyes and skin – irritant and / or discoloring. Health Hazards: Chronic lung, liver or kidney damage. Tungsten: Low toxicity – nuisance dust. Inhalation – cough, Ingestion – none reported. Skin – none reported. Emergency Aid First Aid Procedures: Remover victim to fresh air. Flush skin and eyes with water. For inhalation ingestion seek immediate medical assistance. SECTION VI-REACTIVITIY DATA STABILTIY Unstable Conditions to avoid X Stable **INCOMPATABILITY** (Materials to avoid) HAZARDOUS DECOMPOSTION PRODUCTS Melting may generate harmful fumes. **HAZARDOUS** May occur Conditions to avoid POLYMERZATION | Will not occur X SECTION VII – SPILL OR LEAK PROCEDURES Steps to be taken in case material is released or spilled: Scoop up large quantities. Remove the remaining material with a broom and shovel using a sweeping compound. Avoid creating dust. Waste Disposal Method Tungsten-Copper, Tungsten-Silver, Tungsten Carbide-Copper and Tungsten Carbide-Silver can be recycled. SECTION VIII-SPECIAL PROTECTION INFORMATION Respiratory Protection (Specifiv type) NIOSH approved cartridge respirator. Ventilation Local exhaust recommended Special when producing fumes or dust Mechanical (general) Other Protective Gloves recommended to prevent Eye Protection: Glasses or goggles should be cuts and slivers from sharp edges. used with fume or dust conditions. OTHER PROTECTIVE EQUIPMENT **SECTION IX – SPECAL PRECAUTIONS** Precautions to be taken in handling and storing Store in cool dry place. Avoid generating fumes or dust. OTHER PRECAUTIONS
